Abstract (en)

[origin: US4299742A] The invention provides novel water-dispersible air-drying alkyds containing 1.25-3.75% by weight of polyalkylene oxide radicals, in particular polyethylene glycol, and novel aqueous dispersions of these alkyds (alkyd : water from 30:70 to 70:30) which can be worked into water-based paints having a glossy finish.
