Abstract (en)

[origin: EP1175968A2] The tool has a grip part (10) and a shaft (11) connected to the grip part. A hook (14), which projects beyond the endface of the shaft, can be inserted into the interior of the plug. The hook has a tip which can be pressed into the interior wall of the plug. The hook may be made of metal, preferably of steel.
