Abstract (en)

[origin: WO0138666A1] The invention relates to a holding device (100) for holding long objects, especially roof drainage gutters (1), which are to be attached to a building and which are arranged in an approximately horizontal manner. The inventive holding device comprises at least two strip-shaped gutter holders (2.1,...2.n), which are arranged at a designated distance (A) from one another, and which are to be suspended from, latched into or wedged into a fastening rail (4.1).
