Abstract (en)

[origin: DE19715954C1] The device has a front panel incorporating operating controls and display elements, provided by a front plate (9) and an associated holder for supporting the operating control switches and the display light elements. The holder is provided by a one-piece plastics moulding (7), with stiffening elements (11), defining switch guides at the rear of the front plate and coupled together via stiffening ribs (25).
