Abstract (en)

[origin: EP0876087A2] The component (1) is intended for use, preferably, for mounting on fitted furniture or fittings such as, for example, bathroom mirrors or the like. In the preferred embodiment, the component (1) includes: a power supply such as a transformer (6) for supplying light sources such as halogen or fluorescent lamps, an electric socket (2), preferably a safety socket, preferably activated under the control of a switch (4), and at least one presence detector (8) which, when a person approaches the component (1), can switch on or arrange for switching-on one or more of the electrical devices associated therewith. <IMAGE>
