Abstract (en)

[origin: CA2653414A1] The present invention relates to a method for increasing or influencing t he shelf life of agricultural products which produce ethylene, during transp ort and/or during storage. In the method, the products are transported, sold , presented and/or stored in packagings which are made from corrugated cardb oard (1) which is provided with materials (4) which absorb and/or adsorb eth ylene. The method makes an improved shelf life of agricultural products poss ible with low expenditure for the user.
