Abstract (en)

[origin: WO9813451A1] The present invention relates to granular detergent compositions or components thereof, which comprise a hydrophobic organic peroxyacid bleaching system, capable of providing a hydrophobic organic peroxyacid compound and one or more cationic compounds, which are cationic, (partially) quaternized ethoxylated (poly) amine compounds with clay-soil removal/anti-redeposition properties, for use in laundry and dish washing processes. Preferably, also a non-hydrophobic bleach system is present.
