Abstract (en)

[origin: WO2012143955A1] A neck finish (1) is described, composed of at least one body (3) internally defining at least one passing duct (4) and having at least one surface portion thereof equipped with connecting means (5) of at least one plug or cover (7), such body (3) being further equipped with at least one terminal connecting edge (9) adapted to be connected to at least one corresponding connecting edge (11) of at least one vessel (10). A system comprising such neck finish (1) and a process for packaging by using such system are further described.
