Abstract (en)

There are provided a cutter blade cassette and an attachment thereof to easily handle a cutter blade in a paper cutting machine. A cassette attachment (20) is mounted to a slider in a paper cutting machine. A cutter blade cassette (19) is engaged with a recess portion formed in a separation wall (28) of the cassette attachment (20). A large diameter arc portion (26a) of a protective plate in the cutter blade cassette (19) is aligned with an arc plate (30) of a knob guide member (29). If the knob guide member (29) is rotated, the large diameter arc portion (26a) and a large diameter portion within the arc plate (30) can be retracted into the inside, and causing the cutter blade 6 to be exposed. Accordingly, the cutter blade 6 can be easily handled as the cutter blade cassette 19. <IMAGE>
