Abstract (en)

Machine intended to dose and apply chemical products to vertical walls, such chemical products being for example water, soap, detergent, pickling agents, enamels, paints, primers, waterproofers, polishers, bactericides, combinations of the same and other chemical, biological products having functions such as cleaning, protection, preparation and/or decoration of faades, said products being then processed by means of a roller in order to clean, wash, brush, sand, polish, enamel, etc. and finally dry the treated surface. The machine applies the above mentioned products and other products having similar characteristics, process them by means of various accessories and finally dries them; all these operations are automated. <IMAGE>
