Abstract (en)
[origin: EP0004683A2] 1. Protective cover (10, 20, 30, 40, 50, 60, 70) for electrically operated pocket devices (1, 2, 3, 4, 5, 6, 7) with a display and/or control panel (110, 120, 403, 404, 501, 502) arranged on the front of the pocket device, particularly for pocket calculators, the protective cover being adapted to the external shape of the pocket device and permitting, as required, the exposure or covering of the control and optionally display area, characterized in that the cover (10, 20, 30, 40, 50, 60, 70) has a rear wall (11, 23, 33, 41, 51, 61, 71), two longitudinal side walls (12, 13, 24, 34, 42, 52, 72), an end wall (14, 43, 58) and a front wall having a window-like opening in the vicinity of the control and optionally display area of the pocket device (1, 2, 3, 4, 5, 6, 7), or has no front wall, and is open in the vicinity of the other front face (15), whilst in the case where the cover has no front wall the longitudinal side walls (12, 13, 42, 52, 72) have inwardly projecting guide strips (16, 17, 44, 53, 54, 73, 74) running in the longitudinal direction thereof, which engage over the device (7) and/or are insertable into longitudinal slots (101) in the side walls of the device (1), or the longitudinal side walls (24, 34) of the protective cover (20, 30) have longitudinal slots (27, 37) into which can be inserted the guide strips (201, 301) of the device (2, 3), in such a way that from its open end face the cover (10, 20, 30, 40, 50, 60, 70) can be slid in case-like manner over device (1, 2, 3, 4, 5, 6, 7) in such a way that its control and optionally display panel is not covered or in such a way that it is covered by the rear wall (11, 23, 33, 41, 51, 61, 71).
