Abstract (en)
[origin: EP0006247A1] 1. Duvet or coverlet, with a filling and quilting seams (2) which are intended to prevent sliding of the filling and run from the centre zone of the cover (1) in the direction of the corners, characterised in that quilting seams (2) end at the head and foot of the cover (1) at a distance from the respective corner and run up to the edge of the cover (1) and that in the centre zone of the cover (1), a quilting seam (3) is provided which runs across the longitudinal direction and ends on both sides at a distance from the lateral edge of the cover (1), so that the quilting seams (2) run in the direction of the corners from the ends of this quilting seam (3) running crosswise.
