Abstract (en)

A skeleton construction for a prefabricated building comprising corner posts, intermediate posts and trusses composed of various profiles which are connected to one another by means of various joints wherein the corner post is formed by a box-shaped profile (1), to which over part of its length, on the outward sides an L-profile (2) is fastened and on the inwardly extending rim a further L-profile (3) is connected, said L-profiles being shorter than the box-shaped profile (1), whereas on the lower side of the box-shaped profile U-profiles (4) are fastened.
