Abstract (en)

[origin: CA1112018A] BOX FORMED BUILDING PANEL OF EXTRUDED PLASTIC A box formed building panel has a section in the end walls that joins the panel to an adjacent panel and seals the joint against heat loss. The joining and sealing functions may be combined in a single construction, such as a wedge-shaped projection on one panel insertable into a sealant containing groove in the other panel, or, separate projection and groove combinations may be used for joinder and for sealing. Internal walls and stiffeners may be mounted in the building panel. The building panel may be filled with foam and auxiliary panels mounted on the building panel.

Abstract (de)

Kastenförmige Bautafel, insbesondere aus durchscheinendem oder durchsichtigem Kunststoffmaterial, bei der die aneinander angrenzenden Seiten nach Art von Nut (114) und Feder (135) ineinandergreifen und durch in die Nut (114) eingebrachtes Dichtungsmaterial (149) eine Abdichtung im Stossbereich bewirkt wird.
