Abstract (en)

Provided is a make-up brush including a coating section (10) for applying liquid cosmetic on a predetermined surface, the coating section (10) having a plurality of bristles (11) which forms a bundle, while being spaced at a predetermined distance from each other; a heat-bonded portion (20) formed by melting one ends of the bristles (11) such that the ends are integrally connected to each other; a housing section (30) having such a cross-sectional shape that the end of the coating section (10) having the heat-bonded portion (20) is inserted and housed; a fixing section (40) for fixing the end of the coating section (10), inserted into the housing section (30), to the housing section (30) such that the density of the bristles (11) is uniform; and a rod section (50) connected to the housing section (30) and having such a length that a user can hold the rod section (50) by hand.
