Abstract (en)
[origin: EP0006828A1] 1. Retaining structure with construction elements of the same kind, prefabricated and stacked, said elements being provided with branches extending from a center, two of said branches being visible branches (5) and, as it so happens, one of said branches being an anchoring branch (6), all branches of the stacked construction elements being supported one upon the other, wherein said visible branches (5) of the construction elements (3, 3') stacked in neighbouring piles of elements interlock transversely with respect of the piling up direction and wherein the stacked construction elements (3, 3') are secured among themselves by elements (7, 8, 13, 14), respectively (9) interlocking in the piling up direction.
