Abstract (en)

[origin: EP2609835A2] Disclosed therein is a functional chair which provides storage spaces of various use purposes and a new type storage structure to keep various clothes in safety without creasing. The functional chair includes: a sitting part providing a sitting area; and a backrest part upwardly standing at the rear of the sitting part for supporting a user's back. The backrest part includes a first backrest for supporting the user's back and a second backrest, which is located at the rear of the first backrest and is spaced apart from the first backrest. A storage space is formed between the first backrest and the second backrest spaced apart from the first backrest.
