Abstract (en)  
[origin: EP0011726A1] 1. Transporting and/or storage bin (1), more especially in stackable constructional forms, having a reinforcing and/or stacking rim (6) defining its top opening (5) and having pairs of hand-grips provided on each of two opposite transverse side walls (4), by which the bin (1) can be gripped from both the outside of the wall and the inside of the wall, the hand-grips (8, 9) of each one pair of grips being arranged one above the other beneath the reinforcing and/or stacking rim (6) and in each case one hand-grip being formed by a mussel-shaped recess (8) directed substantially transversely of the plane of the side wall, characterised in that the mussel-shaped recess (8) is provided on the inside of the wall and the hand-grip (9) capable of being gripped from outside the wall is made so as to be open downwardly or is formed by a downwardly directed flange or fillet (10).
