Abstract (en)
[origin: US4285744A] The invention concerns a process for the reproduction of oil paintings or similarly surface-textured images by use of a relief form transferred from an original and a smooth thermoplastic color photo film that is imprinted corresponding to the original, with the film, together with a reenforcing back ply, being laid onto the relief form in fitting alignment and with the film and reenforcing ply being deformed by heating to correspond to the surface texture of the original.
