Abstract (en)

[origin: US4322657A] A gas-discharge display device for a flat and fluorescent screen is provided with at least one grid electrode between the matrix-driven control disc and the anode of the fluorescent screen for the specific field distribution in the acceleration space, the grid electrode or electrodes being connected to a respective fixed potential.

Abstract (de)

Bei einer Gasentladungsanzeigevorrichtung für einen Flächen Bildschirm wird vorgeschlagen, zur speziellen Feldverteilung im Beschleunigungsraum zwischen der matrixangesteuerten Steuerlochscheibe (2) und der Anode (4) des Leuchtschirms mindestens eine Gitterelektrode (11, 12) anzubringen, die an ein festes Potential angeschlossen ist.
