Abstract (en)
[origin: EP0014332A1] 1. A fume extract hood (2) for arrangement above cookers or the like, between or in upper cupboards of kitchen furniture, consisting of a housing (1) and a blower (3), which draws off and conveys the cooking fumes produced, together with a grease and smell filter (4) disposed in front of the suction side, characterized in that the housing (2) on the one hand is guided by means of lateral supports (6) on slide-in rails (13) secured laterally to the cupboard walls (10') and on the other hand is braced by means of laterally projecting securing rails (8) against angular holding rails (5) secured to the cupboard walls (10'), the securing rails (8) partially overlapping the holding rails (5).
