Abstract (en)
[origin: EP0015455A1] 1. An outer wall thermal insulation having a thermally insulating layer of mineral or ceramic fibres made into plates which are secured to the outer wall by pins, characterized in that the plates (3) are provided on both sides with a pressure layer (5) of an inorganic material and are stuck to the outer wall and are additionally secured by means of stainless-steel and/or fire-resistant plate pins (7) held in metal sockets (8), and an outer plaster layer is applied to the plates (3).
