Abstract (en)

First the symbols (3) are arranged in the desired pattern on a mounting sheet (1) and subsequently picked up with the aid of a sticking strip applied across the symbols, the adhesion of which with the symbols is inferior to that between the symbols and the substrate, and stuck to the substrate, after which the mounting sheet (1) is removed, whereby each symbol (3) is temporarily stuck to its own carrier (2) the carrier adheres to the mounting sheet (1) and the adhesion between the carried and the mounting sheet is superior to that between the symbol and the carrier (2).
