Abstract (en)

1. Folding crate comprising four walls (1, 2, 3, 4) and a base obtained as a one-piece moulding from a plastics material articulated relative to one another by zones of reduced thickness which act as hinges, characterised in that it also includes an upper strengthening frame (7) which is articulated to the upper edge of one (1, 1a) of the walls (1, 2, 3, 4), having a central cross-member (8, 14) serving as a handle and including engagement means co-operating with complimentary means provided on the upper edge of the three other walls.

Abstract (fr)

Ce bac pliant est du type de ceux comportant quatre parois et un fond qui viennent de moulage en matière plastique en une seule pièce et sont liés par des zones de moindre épaisseur jouant le rôle de charnières. Il est muni d'un organe supplémentaire qui, articulé à sa partie supérieure, joue le double rôle de poignée de préhension (8) et de cadre de rigidification (7). Ce bac est destiné au transport et au stockage de produits quelconques. Ses applications sont notamment ménagères.
