Abstract (en)

1. Method for mechanically emptying the contents of bags of the type consisting in depositing a closed bag (4) over a movable receiving gullet (3), moving said gullet to apply it substantially tightly against the underneath part of a lid (17) topping a container (10) in which the contents of the bag are to be dropped, and in splitting the bag in its lower part, characterized in that mechanical means ensure the immobilization and the suspension of the bag in the lid (17) and in the receiving gullet (3).

Abstract (fr)

- Manutention. - Le dispositif est caractérisé en ce qu'il comprend des moyens d'immobilisation et de suspension 3, 9, 12, 18 d'un sac plein fermé dans une enveloppe 11 et des moyens pour fendre un sac constitué par un conformateur 16 et par au moins une lame à tranchant 27. - Application aux vidanges de sacs.
