Abstract (en)
[origin: WO7900567A1] Building elements especially for construction of children's playhouses that can be dismantled, but also for other provisional constructions and screenings. Building element of flexible polyurethane foam formed with cuts as logs, and which can be covered with washable textile, serves for building constructions which can be dismantled e.g. playhouses. In connection with children's play, it is an unquestionable advantage to use flexible and light materials both safety wise and handling wise.

Abstract (fr)
Les elements de construction sont particulierement prevus pour la construction de maisons demontables pour les enfants, mais peuvent etre utilises pour la realisation d'autres constructions et abris provisoires. Les elements de construction sont realises en mousse de polyurethane flexible, eventuellement recouverte de tissu lavable, et presentent des encoches permettant leur assemblage. Ces elements de jeu d'enfants n'offrent aucun danger en raison de leur flexibilite et de leur legerete.
