Abstract (en)

[origin: WO8000053A1] Method for producing a model for cutting out articles of clothing said model comprising a sheet (22) showing the cutting-out pattern (15) in reduced size. By means of graded full-scale pattern pieces (10-14) points (17"-21") are marked on the sheet (22) for determining polar coordinates (17-20) from a reference point (16) and measures (C) are calculated which are to be marked along the different coordinates (17-20) from the respective points for reproducing the pattern pieces (10-14) in full-scale for different sizes of the article of clothing.

Abstract (fr)

Methode de production d'un patron pour couper des articles vestimentaires, ledit patron comprenant une feuille (22) representant le modele de coupe (15) en dimensions reduites. Au moyen de pieces modeles a echelle reelle graduee (10-14) des points (17"-21) sont marques sur la feuille (22) pour determiner les coordonnees polaires (17-20) a partir d'un point de reference (16) et des mesures (C) sont calculees pour etre marquees le long des differentes coordonnees (17-20) a partir des points respectifs pour reproduire les pieces modeles (17-14) en grandeur reelle pour differentes tailles de l'article vestimentaire.
