Abstract (en)

[origin: ES250248U] The invention relates to a cap provided with a guarantee strip for stoppering receptacles with a threaded neck, wherein the guarantee strip is formed by at least two separate elements connected to the base of the skirt of the cap by two bosses, of which one, is located ahead of the other as the cap is screwed on and is more resistant than the other, said one boss being severed when the cap is unscrewed. The invention is particularly applicable to the stoppering of bottles of sparkling beverages.

Abstract (fr)

Capsule à bande de garantie pour le bouchage des recipients à goulot fileté. La bande de garantie est formée par au moins deux éléments séparés (7) reliés à la base de la jupe (2) par deux bossages dont l'un, référencé (9) et prévu en avant dans le sens de vissage, est plus résistant que l'autre (10), ce dernier se sectionnant lors du dévissage de la capsule. Bouchage des bouteilles de boissons gazeuses.
