Abstract (en)
[origin: EP0022243A1] 1. Electromagnetic stirrer (4) in an installation for the continuous casting of steel in which the stirrer (4) is installed at a distance from the path (3) of the strand, characterized in that the side (23) of the stirrer (4), that is presented to the path (3) of the strand, is provided with a guide means (5, 21) for the cold strand (9), which guide means is arranged at a distance (13, 22) from the path (3) of the strand.
