Abstract (en)

[origin: US4368916A] An adjustable back folding seat is disclosed. A connecting rod from the back to the seat carries the axis of folding of the back, and another rod carries a bolt for immobilization of the back in use position. A bar for connecting rods ensures the longitudinal adjustment of the back with respect to the seat.

Abstract (fr)

Siège pliant à dossier ajustable. Une biellette de liaison (11) du dossier (1) à l'assise (2) porte l'axe de pliage (13) du dossier et une autre biellette (18) porte le verrou d'immobilisation (16) du dossier dans la position d'utilisation. Une barre de liaison (14) des biellettes (11, 18) assure l'ajustage longitudinal du dossier par rapport à l'assise.
