Abstract (en)
1. Sole for spike shoes used in athletics, which sole is flexible (in 26) over most of its surface, and presents rigid bosses (28.1 to 28.6) holding in tapped collars (56) for screwing in spikes, and further comprising hollow protuberances (71 to 74; 91), characterized in that the protuberances are closed in such a way as to confine air in, said protuberances or pads being supple crushable.

Abstract (fr)
Semelle pour chaussure à pointes d'athlétisme comportant des zones souplement écrasables (82), des zones rigides (28) et des zones de liaison souples (75). Les zones souplement écrasables (82) consistent en des protubérances creuses. Les zones rigides (28) consistent en des bossages destinés à maintenir prisonnières les embases prévues pour la fixation des pointes. Les pointes (51) sont dirigées vers l'arrière de la semelle à partir de leurs attaches.
