Abstract (en)
[origin: WO8100996A1] Display box comprising a base (1) provided with a side wall (12) and a hollow cover (2) pivotingly mounted on one end face of the side wall (12) of the base (1) by means of pivoting members, the base (1) and the cover (2) provided as two separate pieces, the pivoting members comprising two projecting pins (14) integral with one of the pieces, and two ovalized holes (23) in the other piece to receive said pins (14). The display box is characterized in that the base (1) comprises a lower peripheral flange (13) connected to the lower portion of the side wall thereof (12) and on which bears the cover (2) in closed position, and an opening in the region of said end face (121) at the vicinity of said flange to prevent the blocking of the cover before it reaches its open position. Application to packaging and presentation of luxury articles such as perfumery articles.
