Abstract (en)

A composite sheet-pile wall comprising piles (1, 2) driven into the ground in spaced relationship and a screen (4) of sheet piles (5) connecting said piles (1, 2). The piles (1, 2) and the sheet piles (5) are connected together by interlocks (6, 7). The wall is made by first driving in the pile (1, 2) and then placing the screen (4) as a whole, either by driving in the sheet piles (5) all at the same time, or driving them in incrementally and alternately at least two at a time, and in such a manner that, in plan view, the respective interlocks (6, 7) are located on a curved line.
