Abstract (en)
[origin: EP0031913A2] 1. A telescopic position-regulating screw for a ventilator window, a ventilator hatch, a sun roof or the like mounted in a suitable aperture, the regulating screw comprising : an internally threaded (20) stationary sleeve (18) held by a support (16) fastened to the edge portion of said aperture ; a sleeve (24) turnably mounted in the stationary sleeve, being externally threaded (26) to match the latter's internal thread and being internally threaded (28) in a direction opposite to its external thread ; and a threaded spigot (36) securable fast against rotation to the ventilator window (48) or the like and engaging the internal thread (28) of the turnable sleeve (24), characterized by a rotary button (50) mounted rotably yet fast against axial displacement on and relative to the stationary sleeve (18) and also mounted fast against rotation yet axially displacingly on the turnable sleeve (24).
