Abstract (en)

A tape of drinking straws in which each straw (1) is enclosed between two sheets (2) of paper joined together using a known cold or hot method. The tape is equipped with two biadhesive strips (3) along its edges which allow each straw to be easily placed on a box container (4). In this way, the tape of drinking straws is prepared in a single processing phase and in a very economical manner. At the same time, the disadvantages of placing the straws on the containers using liquid glues are eliminated.
