Abstract (en)

1. Anti-theft device for motor cycles, bicycles and similar vehicles, as well as for accessories or personal objects, in particular for motor cyclists crash helmets, of the type comprising a support (1) embedded in the ground (3), movable means (10, 10') connected directly or indirectly to said support (1) and able to enclose a part (20) of the vehicle (21) such as the wheel or fork, a box (5) for receiving objects mounted on the same support (1) and closing and locking means able to ensure simultaneously locking of the opening of the box (5) for receiving objects and of the movable means (10, 10') enclosing part of the vehicle, characterized in that said closing and locking means are constituted by a safety barrel (16) operated by a key (17), which can be removed in a repetitive manner, the fitting of which ensures, after removal of the key (17), the locking of the opening of the box (5) for receiving objects and of the movable means (10, 10') as well as the immobilization of the barrel (16) itself on the anti-theft device.

Abstract (fr)

Cet anti-vol assure la sécurité des véhicules à deux roues ainsi que des accessoires ou objets personnels de leurs utilisateurs, notamment les casques des motocyclistes. Un pied-support (1), scellé dans le sol (3), porte un organe mobile (10), tel que câble, apte à enserrer une partie (20) du véhicule (21). Sur le même pied-support (1) est monté un coffre porte-objets (5), comportant au moins un casier (7) fermé par une porte (8). Le blocage du câble (10) enserrant le véhicule, ainsi que de la porte (8) en position fermée, est assuré par un seul et même moyen de verrouillage, constitué par un barillet de sécurité (16) à clé (17), enlevable de façon répétitive.
