Abstract (en)
[origin: EP0035342A2] A goods display system has a column 1 of open-work form which includes a plurality of suspension bars 3 for the attachment to the column of a main article support 21 or one or more auxiliary article supports 16, 19. The system also includes a support 4 for supporting the column in a desired location. The system is particularly useful for the display of goods and relative information in shops.
