Abstract (en)  
A carton for storing and transporting a pair of shoes comprises front (11, 11a) and back (12, 12a) panels interconnected by spaced side panels (13, 13a; 14, 14a), a first end wall closure including a closure panel (15, 15a) hinged to said front panel to close one end of the carton and forming a lid to provide access to the interior of the carton, and a second end wall closure closing the other end of the carton, thereby forming a parallelepiped structure, said back panel being extended beyond the first end closure to provide a handle panel (16, 16a) including means (17, 17a) by which the carton can be carried.
