Abstract (en)
[origin: EP0037085A1] 1. A transportable anchorage device for the anchorage of a safety harness on dangerous, essentially flat work places, such as flat roofs, characterized by a flexible large sized container (2) with a large base surface (3) in proportion to its height and with a fitting (spigot 7) for the connection of a water conduit as well as at least one mounting for the connection of the safety harness.
