Abstract (en)
An end loadable carton for accommodating beverage containers such as bottles or cans includes a bottom wall (2), a top wall (4) interconnected by foldably joined side walls (3, 5) to provide a generally tubular structure and an end closure arrangement including an end flap (15, 16) foldably joined to each side wall, and a gusset panel (26, 27) intermediate each end flap and the adjacent side wall, the gusset panel having a lower portion with side edges which are divergent in a direction away from the bottom wall and an upper portion with convergent side edges.
