Abstract (en)
[origin: EP0044376A2] 1. Drawer cabinet, especially for chemists, whose drawers (1) comprise, behind a grip panel (5), a dust-sealing means extending round at least three sides with a soft-elastic sealing element projecting beyond the encircling edge of the grip panel (5), and the sealing element is secured preferably to the periphery of an intermediate panel (7) situated between the front side (4) of the drawer (1) and the grip panel (5), characterised in that the surrounding sealing element comprises a continuous flexible brush strip (11) whose base portion is held in a groove (17) of a profile strip (13) made of synthetic plastic material.
