Abstract (en)

[origin: EP0044546A1] 1. A rectangular portable container for accommodating written material, which is in the form of loose sheets or is filed in quick-release binders, which container comprises grips which are arranged at the upper zones of the narrow side-walls and are each formed by a strip overlying a lateral projection from each side-wall, characterized in that the projections (5, 6) and the strips (7, 8), together with the portions that interconnect them and project laterally from the front wall (1) and the rear wall (2) of the portable container, each form a one-piece frame for receiving the block-shaped ends of a resilient carrying strap.
