Abstract (en)

A modular card for use as a business or personal identification card includes a base-support (1) and at least one information module (2, 3, 4) detachably secured to the base-support (1). The base-support (1) is preferably rigid with an anti-stick surface to which surface the information module (2, 3, 4) in the form of a slip is stuck. The receiver of the card may separate an information module (2, 3, 4) from the base-support (1) for purposes of classifying the information module (2, 3, 4) separately from the base-support (1) or the card bearer can remove at least one information module (2, 3, 4) to suit his needs prior to distributing the card.
