Abstract (en)
[origin: ES260336U] A cleaning cloth is described which is made from microfibers having a nonporous fiber core surrounded by a foamed coating layer containing open celled pores. The microfibers may optionally be combined with other types of fibers. The cloth has a high capacity for holding dirt and in another application, a detergent, bactericide, fungicide or preservative can be contained in the pores to provide a combination cleaning cloth.

Abstract (de)
Die Mikrofasern bestehen aus einem polymeren Werkstoff. Sie weisen einen im wesentlichen porenfreien Faserkern und einen den Faserkern umgebenden, offenporig geschäumten Fasermantel auf, und sie sind gegebenenfalls mit andersartigen Fasern gemischt oder durch diese abgedeckt. Die andersartigen Fasern können gekräuselt sein. In den Poren des geschäumten Mantels der Mikrofasern kann ein Detergens, ein Bakterizid und/oder ein Fungizid und/oder ein Konservierungsmittel enthalten sein.
