Abstract (en)

A foldable or collapsible chair with padded seat and backrest, comprising a rigid rear panel (1), two side panels (2) having a rear portion (2 min) fixed to the rear panel (1) and a front portion (2 sec) hingedly connected to the fixed portion (2 min), and a seat (12)-backrest (13) assembly hinged together to be brought from their extended configuration to the folded one where they lay vertically against each other. In the latter condition, their bulk is such as to enable a 90 DEG folding movement of the front portion (2 sec) of each side panel (2), thereby they bound a parallelepipedal space with the rear portions (2 min) and rear panel (1).
