Abstract (en)  
[origin: EP0049433A2] 1. A screen ceiling comprising strips (21, 22) with a U-shaped cross-section and having edging strips (23, 24) bridging them over along the sides of the screen ceiling, and with fixing devices (36) which are attached to the edging strips and plug into the end faces of the bridged-over strips to connect the edging strips to the bridged-over strips, characterised in that the fixing devices are formed as claws, preferably sprung claws, which hook in securely between the sides (25, 26) of the bridged-over strips (21, 22) into the ends of which they are pushed.
