Abstract (en)

The casing comprises a cardboard or other suitable material sheet member, as suitably transversely die cut in such a way as to define five portions (1), (2), (3), (4), (5), the two intermediate whereof form, respectively, the front and rear flaps or flats of a cover member, and being separated by a portion forming the back of the cover member, the two end portions being effective to be folded onto the flaps and joined to two sides thereof by means of perimetrical edge portions (6) as laterally formed with respect to the end portions or intermediate portions.
