Abstract (en)

A printing apparatus of the type having a printing station, a printing force exerting (11) and resisting means (66), an image carrier (78) and a font element (14) with a raised character (95) and a tape-ribbon cartridge (12) therefor. The improvement of the present invention relates to an improved device for exerting a printing force and an improved tape-ribbon cartridge (12) for supplying tape (78) and ribbon (79) to the printing station and for guiding and supporting the font element (14) into printing alignment.
