Abstract (en)

[origin: US4391386A] Handling case with incorporated foldable lid. According to the invention, the case includes a lid made of two parts (4, 5) hinged to one another about a hinge (6) and which may be tipped against one another, hook-shaped mechanisms (12) being provided on the front part (5) of the lid which lock into slots (13) formed in a corresponding location along the edge (14) of the case when the lid is closed. The invention is applicable in particular to cases which can be stacked one inside the other when they are empty.

Abstract (fr)

Caisse de manutention à couvercle rabattable incorporé Selon l'invention, la caisse comporte un couvercle formé en deux parties (4, 5) articulées l'une à l'autre autour d'une charnière (6) et pouvant être rabattues l'une contre l'autre, des moyens en crochets (12) étant prévus sur la partie avant (5) du couvercle se verrouillant dans des encoches (13) formées en correspondance sur la bordure (14) de la caisse lorsque le couvercle est fermé L'invention s'applique notamment à des caisses pouvant s'emboîter les unes dans les autres lorsqu'elles sont vides.
