Abstract (en)

The cushioning (1, 2) has the form of a sheet (13) which extends slightly beyond the frame, having at its centre a wide opening (14) and comprises, for its fixing to the trampoline, along the edge of its central opening (14), flanges which interact with the suspension (5). <IMAGE>

Abstract (fr)

Le matelassage (1, 2) se présente sous la forme d'une plaque (13) débordant légèrement du cadre, présentant en son centre une large ouverture (14), et comporte pour sa fixation sur le tremplin, au long du bord de son ouverture centrale (14), des pattes coopérant avec la suspension (5).
